

No. 02873  
Willowick Arbor

**STEP 1.**

Layout steel frame. Connect sections being certain corner pieces are correct.

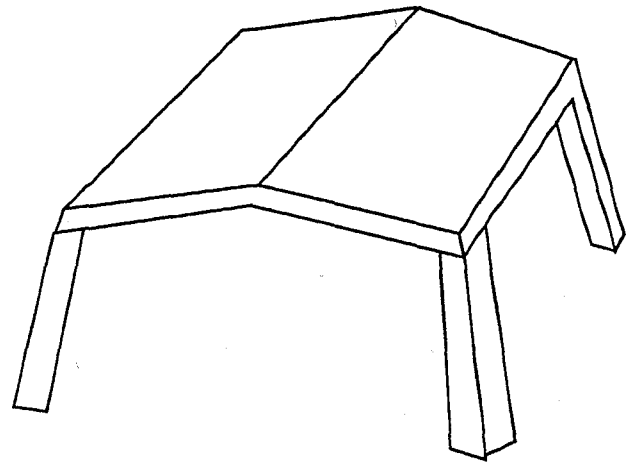

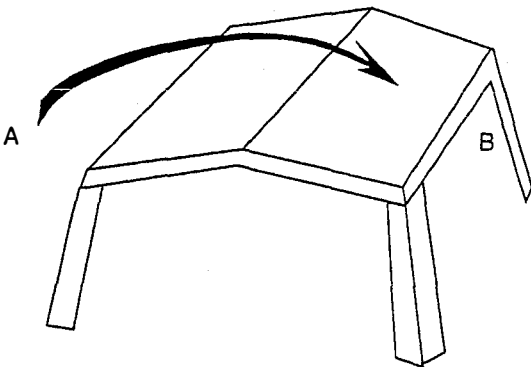

**STEP 2.**

Start top frame assembly at corners and connect as illustrated.

**STEP 3.**

Pull arbor cover tightly over assembled frame from A to B.

**STEP 4.**

Lift covered frame higher and insert bottom set of leg poles (#5). Pull arbor cover tightly all around and secure to poles.

**QUESTIONS**

If you have any questions, please call our Customer Service Department at 1-800-231-1402. This department is open M - F from 8:00 a.m. until 5:00 p.m. CST.

**WARNING**

This product has not been designed for use in thunderstorms or heavy winds. Such use in these conditions may result in damage to this arbor.
