

INSTRUCTIONS

ITEM 15135 - MAGNESIUM FIRESTARTER

Step 1: Gather kindling such as dried grass and twigs and place in a dry, fire safe area.

Step 2: Using the flat side of the striker, shave magnesium filings onto kindling.

Step 3: While holding upright over kindling and magnesium filings, using the serrated edge of the striker, quickly strike the flint rod in a downward motion to create sparks. Sparks will ignite the magnesium and kindling to create fire.
